## Agriculture & FOOD

We connect quality agricultural and food products with new markets, supporting sourcing, product development, and international opportunities between Türkiye and the United States.

Türkiye's rich agricultural heritage offers a wide range of high-quality products with strong potential in international markets. We connect selected agricultural and food products with opportunities in the United States, supporting businesses and brands throughout their international expansion journey.

## BUSINESS CONSULTING

We provide strategic business consulting to help companies identify opportunities, build valuable connections, and develop practical strategies for sustainable international growth.

International business requires more than identifying an opportunity. It requires market knowledge, reliable connections, careful planning, and a clear understanding of the commercial environment.

## *trade* & *Import-Export*

We facilitate international trade by connecting buyers, suppliers, and products, providing sourcing, procurement, and import and export solutions tailored to each opportunity.

International trade creates opportunities for businesses to access new products, suppliers, customers, and markets across borders. Our Trade & Import / Export services focus on connecting buyers and suppliers while supporting selected products and commercial opportunities between Türkiye and the United States. We work with businesses seeking reliable sourcing solutions, new supply channels, and opportunities to expand their international trade activities.

## *U.S. Market Entry & Digital Commerce*

We help businesses enter and grow in the U.S. market through e-commerce, digital strategy, brand development, and practical solutions designed to build lasting market presence.

Entering the U.S. market requires more than simply offering a product or creating an online store. Businesses need the right positioning, digital presence, sales channels, customer strategy, and understanding of the market they are entering. Our U.S. Market Entry & Digital Commerce services help Turkish businesses, brands, and entrepreneurs establish a professional presence and explore practical opportunities in the United States.

## *medical* **TRAVEL**

We connect clients with selected medical providers in Türkiye, delivering personalized guidance, trusted coordination, and a seamless medical travel experience.

Medical travel requires careful coordination, trusted connections, and a clear understanding of the patient's individual needs. Our Medical Travel services connect clients with selected healthcare providers and treatment opportunities in Türkiye, supporting the process from initial communication through travel coordination and follow-up arrangements.

## About Us

*At LEO Medical Travel LLC, we build meaningful business connections between Türkiye and the United States. We help businesses, brands, entrepreneurs, and selected products enter new markets, develop commercial opportunities, and create sustainable cross-border partnerships. Our services cover trade and import/export, business consulting, agriculture and food products, U.S. market entry, digital commerce, and selected medical travel services. From sourcing and supplier connections to market research, business development, e-commerce, and brand positioning, we provide practical solutions designed around each client's individual goals. We believe that successful international business requires more than simply moving a product from one country to another. It requires understanding the market, identifying the right opportunities, building trusted relationships, and managing the process with precision. Our approach combines commercial experience, strategic thinking, and a strong understanding of both the Turkish and U.S. markets. Whether we are helping a Turkish business explore the U.S. market, connecting a buyer with the right supplier, developing an agricultural or food product opportunity, or supporting a brand's digital expansion, our goal remains the same: to turn opportunities into real and sustainable business. At LEO, we work selectively and personally. We believe in direct communication, transparency, reliability, and long-term relationships rather than one-size-fits-all solutions. Every project is approached with the same commitment to quality, professionalism, and measurable results.*

**“Our goal is unique, but with you, it is the same.”**

*Our brand represents more than services. It represents connection, trust, opportunity, and a commitment to creating value across borders. We embrace our clients' goals as our own and bring together strategy, commercial insight, creativity, and execution to help them move forward with confidence.*
